

Colonel Macleod School

School Digital Citizenship Plan 2023-2024

Relevant contextual information about your school and School Development Plan:

- Diverse student population benefits from using technology to demonstrate learning in varied ways.
- English as an Additional Language Learners use technology to access learning

Relevant evidence and data that informs your Digital Citizenship Plan:

- Students need support to balance use on their phones – “33% of students say they take care of themselves by making sure they don’t have too much screen time”
- EAL students require technology to support access to learning - 48% of students speak a language other than English at home.

School Digital Citizenship Plan						Progress		
Long Term Goal (e.g. spanning 8-10 months)	Competency (may be chosen from the CBE DC Competencies)	Short Term Goals (in support of the long term goal)	Outcomes	Activities & Resources	Measures	November	January	June
Long term goal #1 Eliminate personal digital device use during class time. Students have access to personal devices at lunch only.	Balanced	Implement new expectations – cell phones remain in lockers during class time and nutrition break, or they are brought to the office.	Success, cell phones are mostly remaining in lockers on the rare occasion they are out in class, students are directed to bring them to the office	Clear rules, consistent expectations, LL meeting and staff meeting discussion	Frequency of cell phones being brought to the office	Implemented successfully		
Long term goal #2 Improve student digital citizenship and social media etiquette	Responsible	Short term goals: Teachers to review Paul Davies presentation highlights.	Engage with students who behave and interact inappropriately on social media	Administration, teachers, space for discussion	Referrals to office/concerns from parents for social media interactions causing harm.	Implemented successfully
